SPECIAL COLLECTIONS

For those who would like to specialize in bulbs from well known originators, we offer the following collections assembled according to the quantities as listed inside. This means all large sized bulbs. If you prefer more bulbs, we can send for the same price a much larger quantity of assorted sizes which will however take a longer period to bloom.

KUNDERD ORIGINATORS—87 Large Bulbs

Special \$4.75

Moravian	E. J. Shaylor	Lacinatus	Golden Frills
Fern Kyle	Col. C. Lindbergh	Mrs. G. W. Moulton	Excellence
Patricia Carter	Gov. Pinchot	Purple Glory	Favorite
Mrs. C. Coolidge	Crinkles	Mary Jane	T. A. Edison
J. T. Pirie	Romance	Tiger	

PFITZER ORIGINATORS—74 Large Bulbs

Special \$5.00

Albatross	Mildred Louise	Pelegrina	Pfizer's Triumph
Mammoth White	Mr. W. H. Phipps	Betty Nuthall	Commander Koehl
Bagdad	marmora	Mother Machree	

RAINBOW ASSORTMENT

Made up individually to your order from named varieties, but unlabelled. State color preference or dislikes and we will sort them accordingly. 100 blooming size bulbs \$3.00; 50 bulbs \$1.50; 25 bulbs 75 cents; 12 bulbs 40 cents.

HIT OR MISS MIXTURE

Quantities of these were sold the last two seasons, and we received many favorable comments. Whenever labels have become lost or varieties mixed, they are put in this collection. They may be very fine varieties. You take a chance, but every bulb is a good one and sure to bloom. Good assortment for the cutting garden. 100 bulbs \$1.50; 60 bulbs \$1; 24 bulbs 40 cents.

KEY: E—60-70 days from planting; EM—70-80; M—80-90; LM—90-100; L—over 100 days required to bloom large bulbs. Smaller bulbs require longer. Number indicates rank of popularity in A. G. S. symposium.

Come And See Us

We are located at 23808 Hedgewood Avenue, Dover Village. (Mailing address, R. F. D. North Olmsted, Ohio.) State Route 2 and U. S. Routes 20 and 6 are not far from us. Visitors from the West and South should find the junction of Routes 252 and 20. Then drive East on 20 about one mile to the marked crossroad known as Clague Road. Turn to the South or right, one good size block to Hedgewood Avenue, where you will see our sign. Visitors are always welcome, especially on week ends during the blooming season. Growing better gladiolus is a specialty with us and in our fields you can compare and select your favorite varieties.

COMPARE OUR PRICES AND QUALITY

Blue Ribbon Quality
Prize Winning Bulbs

In addition to their beauty, gladiolus have many qualities to recommend them to the amateur grower—low cost, ease of culture, general freedom from disease and bugs (except thrips), the simplicity with which they can be carried over from year to year, length of blooming season, and rapid rate of increase.

These beautiful spectacular flowers are not particular as to soil, but they do demand sunshine and water. Plant them in the open, and water heavily at least once a week, making sure the soil is wet six inches down. When the flower spike appears, water every few days. Keep well cultivated, feed occasionally with a well balanced fertilizer (we use a 4-12-4) and you will have success. Of course any extra effort you put on them will be justly rewarded with that much better bloom. With each order we send complete instructions.

Special This Year

Because we know you will gain more satisfaction from growing gladiolus according to name, we are this year enclosing with each 25c item an 8-inch garden stake marked with the variety name. This will help you to know the different varieties by name.

Our customers' blue ribbons and our own winnings at the shows prove that we can raise prize winning bulbs. Every transaction is handled personally and filled with quality bulbs, true to name and free from disease or thrips.

In some varieties only the large size bulbs (1¼ inches diameter) will produce flowers. In others, medium (¾" to 1¼") and even small sized bulbs (under ¾") will produce good flower stalks. We know these classifications and every bulb that we ship is a blooming size bulb.

The figure before the price of a variety, 2-25c, indicates that two large size bulbs will be sent for 25c; 5-25c means five bulbs for 25c. For the price in larger quantities figure as follows: the 7 for 25c bulbs will be 35c a dozen, 65c for 25; 6-25c is 45c dozen, 75c for 25; 5-25c, 50c dozen 90c for 25; 4-25c, 65c and \$1; 4-30c, 70c and \$1.25; 3-25c 80c and \$1.50; 3-30c, \$1 and \$1.75; 2-25c, \$1.25 and \$2.25; 2-30c, \$1.50 and \$2.75.

In order to fill orders quickly, we have packaged our bulbs in units of 25 or more, so please do not ask for individual items at less than this price. We have also had to place a minimum of \$2 on all complete orders to cover cost of packing, postage and the special garden labels.

Meet Other Enthusiasts

To keep up with the new originations, it is necessary to attend gladiolus shows regularly and visit good collections. Membership in the Ohio Gladiolus Society which is affiliated with the American Gladiolus Society, is well worth while. We will be glad to enter your name, if you check the place on the order blank and enclose the first year's dues. (Also may we suggest membership in the New England Gladiolus Society which has again issued a very fine Glad book.) For any new membership, one dollar's worth of superior quality bulbs will be added to your order free.

Membership entitles you to attend the state and national shows, enter your blooms with amateurs from all over the state, and even try against the professionals. It is not unheard-of for an amateur to grow better flower spikes than the professionals. A year's subscription to the "Glad Review" the official monthly publication is included. This contains many timely and useful articles.
